

EASA Supplement Training

Understanding the EASA Special Conditions and how they relate to your Repair Station.

EASA Supplement
Bridges the Gap

EASA
European Aviation Safety Agency

Goals

The goal of this first introductory course is to learn how Domestic Repair Stations relate to EASA. This relationship is based on a Bilateral Agreement.

Objectives

The primary objective of the course is to learn how the EASA Special Conditions relate to the Repair Station's manuals in order to understand any changes necessary to maintain articles effected by agreement.

This course includes a 10 minutes presentation, a 34-page student guide and 20 question quiz, for a total of 60 minutes of training.

To purchase this course go to www.bluetunallc.com
See the next page to take it a step further.

Take it a step further!

Customize this course by using our presentation, create a handout using your EASA Supplement to build a handout and quiz that is relevant to your Repair Station Operations.
